

COMTELCO

Technical Specification

BSSMNT10, BSSMNT20

TOWER STANDOFF

BSSMNT10: Tower Side Mount Kit: This side mount kit has been designed for use with the Comtelco XL series base station antennas. It is supplied with 2" galvanized U-bolts that will easily mount on a ROHN 45 type tower.

If a larger tower leg is being used, stainless steel strapping (not supplied) can be used. These side mounts are very heavy duty with galvanized finish. The BSSMNT10 is 12" high and will move the antenna 25" off the tower leg.

BSSMNT20: Tower Side Mount Kit: This side mount kit is a 22" high version of the BSSMNT10.

	BSSMNT10	BSSMNT20
HEIGHT	12"	22"
LENGTH	25"	25"
WEIGHT	9.5 lbs.	11.5 lbs.
FLAT PLATE AREA	.29 ft ²	.44 ft ²
WIND LOAD	19.8 lbs.	30 lbs.

These units are shipped in standard configurations but can be ordered with custom options.

The BSSMNT10, 20 shipped with galvanized U Bolts that will mount the antenna to the standoff.

BSSMNT10-2 2 galvanized U Bolts 3/8-16THD 1-1/2" ID
